

Our General Incorporated Association, The Support Net for Those with Higher Brain Dysfunction, by utilizing welfare and other resources, seeks to realize a society in which those with various physical and mental challenges and those without can live and work together harmoniously.

Kohi Baisen Kobo HUG operates a B-Type Support Facility for Those with Disabilities Who Wish or Are Able to Continue to Work (*Shūrō Keizoku Shien Jigyō B*) at which coffee beans are carefully selected, roasted, with the coffee sold as beans or ground form, providing a place of employment for those with disabilities.

We use special coffee beans in our own roaster, making two original blends.

The dark blend combines coffee beans from Brazil, Kenya, and Burundi, made for people who appreciate a rich and deep coffee experience.

The fragrant blend uses coffee beans from Ethiopia, Kenya, and Burundi for those who enjoy a brilliant and fragrant blend.

The Secret to HUG's Delicious Coffee

1. Careful selection

We carefully inspect each bean for defects, including mold, cracks, etc., and eliminate them from the mix.

2. Freshness

We have our own roaster next to where we select the beans and they are roasted soon after inspection and blending. After cooling the beans are immediately packaged in the same work area, and for coffee grinds, the coffee beans are immediately ground and packaged.

3. Packaging

We use a packing method that maintains the freshness, preventing air from getting in, while allowing vapors from the coffee to exit the package.

Regular Coffee(Beans or Grinds)

100 grams 600 yen
200 grams 1,000 yen

Original Drip Packs

5 individual portions 500 yen
10 individual portions 1,000 yen

Project to Make Our Town, Takarazuka, Better

We started a project to bring the delicious fragrance of HUG Coffee to our town. Partnering with the Red Feather Community Chest (*Akai Hane Kyōdō Bokin*) and the Takarazuka Social Welfare Association (*Takarazuka Shakyō*), we have created an original order drip cup coffee bag with their respective logos on it. When a set of five packs is purchased for 600 yen, we will donate 100 yen to the Red Feather effort. We are one of one hundred other enterprises participating in this “100 Stores Project (*Bokin Hyakkaten*).”
